AI-INFUSED SEO ARCHITECTURE

This sitemap reflects the AI-powered website update. A dedicated AI Capabilities section has been added as a primary nav item and indexable page cluster. AI-specific keywords are embedded throughout service, specialty, blog, and case study slugs to capture search traffic from practices actively looking for AI-powered healthcare marketing. All AI pages use `MedicalOrganization + SoftwareApplication` schema and target long-tail keywords like "AI patient acquisition healthcare" and "HIPAA-safe AI marketing for doctors."

CORE PAGES

ensembledigilabs.com/

6 PAGES

KEY PAGE Home

/

AI-powered healthcare marketing agency · Full-stack clinical technology partner

KEY PAGE About Us

/about

Healthcare product company · Built for Healthcare. AI-Powered to Grow. · Product DNA

KEY PAGE Free AI Practice Audit

/free-practice-audit

AI visibility scan · Reputation check · Competitor intel · ROI forecast · Start in 14 days

Contact

/contact

Book a strategy call · Support · Partnership inquiries

NO-INDEX Privacy Policy

/privacy-policy

HIPAA compliance · Data handling · PHI protection

NO-INDEX Terms of Service

/terms

Service agreement · HIPAA BAA framework

AI CAPABILITIES **NEW SECTION**

ensembledigilabs.com/ai/

6 PAGES

KEY PAGE

AI

AI Capabilities Overview

/ai

AI-powered patient targeting · HIPAA-safe AI stack · Predictive marketing for medical practices

AI

Predictive Patient Targeting

/ai/predictive-patient-targeting

AI audience models · Behavioral signal analysis · Patient journey mapping at the moment of decision

/portfolio/stl-ioir-clinics

Interventional oncology & radiology · Custom website + AI local SEO

Arc Wellness

/portfolio/arc-wellness

Medical aesthetics · Next.js custom build · AI SEO architecture

Smart Pain Solutions

/portfolio/smart-pain-solutions

Pain management · AI performance marketing + website · 100+ patients/month

MHW Surgery

/portfolio/mhw-surgery

Surgical practice · Brand identity + custom website + HIPAA forms

AIPSTL

/portfolio/aipstl

Healthcare organization · AI-optimized member acquisition · Digital strategy

CB Surgery

/portfolio/cb-surgery

Bariatric surgery · AI brand launch + performance marketing · 20+ patients in 60 days

SERVICE PLANS

ensembledigilabs.com/plans/

4 PAGES

KEY PAGE

Plans Overview

/plans

Local Foundation · Growth Engine · Market Leader — AI-powered, HIPAA-compliant growth plans

Local Foundation Plan

/plans/local-foundation

AI-assisted GBP management, local SEO, citation building, automated review generation

Growth Engine Plan

/plans/growth-engine

AI-targeted Google + Meta Ads, social, email with AI send-time optimization, bi-weekly AI dashboard

Market Leader Plan

/plans/market-leader

AI chatbot, predictive targeting, CRM automation, YouTube, PR — full market dominance

AI PAGE SCHEMA

All /ai/ pages use `SoftwareApplication` + `MedicalOrganization` schema. AI capability pages include `FAQPage` schema targeting "what is HIPAA-safe AI marketing" style queries. Blog posts use `Article` with `author` structured data for E-E-A-T authority signals.

AI INTERNAL LINKING

Home and Services pages link to /ai as a primary nav item. Each service vertical page cross-links to the relevant AI capability page. Blog articles on AI topics link to /ai/[specific-capability]. All pages funnel to /free-practice-audit as the primary conversion destination.

AI KEYWORD CLUSTERS

Primary cluster: "AI healthcare marketing", "AI patient acquisition", "HIPAA-safe AI marketing." Secondary: "predictive targeting medical practice", "AI chatbot healthcare." Long-tail: "how to use AI to get more patients", "HIPAA compliant AI tools for doctors 2026."

ROBOTS.TXT RULES

Index: /ai/, /services/, /specialties/, /case-studies/, /blog/, /portfolio/, /plans/. No-index: /privacy-policy/, /terms/, /thank-you/, /admin/, all ?preview and ?draft query params.
Sitemap declared at /sitemap.xml. AI pages submitted to Google Search Console within 24hrs of launch.

CORE WEB VITALS

LCP < 2.5s · CLS < 0.1 · INP < 200ms — achieved via Next.js App Router SSR, Vercel/Cloudflare edge CDN, `next/image` optimization, and no render-blocking third-party scripts on initial load. AI chatbot widget lazy-loaded post-interaction.

CONTENT CADENCE

Blog: 2–4 posts/month minimum with at least 1 AI-focused article per month. Case studies: updated after each client milestone. AI capability pages: quarterly refresh with latest performance data. All new URLs submitted to Search Console within 24hrs of publishing.
