AVERAGE REVENUE

AI-FIRST STRATEGY

Every campaign is powered by predictive AI — audience modeling, patient journey mapping, and real-time optimization that outperforms manual targeting.

HIPAA-SAFE BY DESIGN

AI compliance monitoring scans every pixel, form, and ad in real time. Our stack is built so AI never puts your practice at regulatory risk.

REVENUE-OBSESSED

Every AI model, every automation, every campaign is calibrated to one outcome: more patients through your door and more revenue in your practice.

WHO WE ARE

**THE ONLY PARTNER
BUILT LIKE THIS.**

Most agencies run campaigns without technology. Most tech shops ignore

marketing. We combine AI-powered marketing intelligence with clinical software and IT infrastructure — all under one roof, all purpose-built for healthcare. The result: faster patient growth, lower acquisition cost, zero compliance risk.

START THE CONVERSATION

"We are a healthcare-focused product company that delivers the full digital stack — AI, software, infrastructure, and marketing — under one roof, built exclusively for the clinical world."

AI-POWERED INTELLIGENCE

Predictive audience targeting, AI patient journey mapping, and machine learning optimization drive better results than any manual campaign strategy.

HIPAA-SAFE AI STACK

Our AI tools are purpose-built for healthcare privacy. Automated compliance monitoring scans every touchpoint in real time — no PHI exposure, ever.

FULL-STACK DELIVERY

AI + Dev + IT + marketing in one contract. One point of accountability for every outcome — no gaps between vendors, no broken handoffs.

GROWTH-ORIENTED ROI

Every AI model and automation is calibrated to measurable patient acquisition and practice revenue — never vanity metrics.

WHAT WE DO

**FIVE VERTICALS.
ONE PARTNER.
ZERO GAPS.**

Every service is **AI-enhanced and purpose-built for healthcare** — predictive targeting, automated compliance, intelligent content, and smart patient nurture baked into every layer. HIPAA-safe. Zero gaps.

VERTICAL 01

SOFTWARE & PRODUCT

We build the digital infrastructure your practice runs on — custom-engineered, HIPAA-compliant, and AI-ready by design to scale with your growth.

- ✓ HIPAA-compliant healthcare web applications
- ✓ Mobile health apps — iOS & Android
- ✓ AI-assisted patient portals & booking systems
- ✓ EHR integrations & clinical workflow automation

VERTICAL 02

IT INFRASTRUCTURE

Reliable, secure, compliant clinical IT — built to support AI tools, data pipelines, and digital growth without creating compliance risk.

- ✓ Clinical IT design & implementation
- ✓ HIPAA-compliant hosting & secure data environments
- ✓ AI-ready network architecture & integrations
- ✓ Secure infrastructure for AI platforms & analytics

VERTICAL 03

WEBSITES & LOCAL SEO

Physician-grade websites engineered for Core Web Vitals, AI-assisted content strategy, and local search dominance that makes your practice the obvious

strategy, and local search dominance that makes your practice the obvious choice.

- ✓ Custom physician-grade website builds
- ✓ AI-assisted keyword & content strategy
- ✓ Google Business Profile & local search optimization
- ✓ Medical schema markup & Core Web Vitals

VERTICAL 04

PERFORMANCE MARKETING

AI-powered campaigns with HIPAA-safe tracking, predictive audience targeting, and automated patient nurture that drives high-intent patients — and converts them.

- ✓ AI-targeted Google Ads & Meta Ads
- ✓ Predictive patient audience modeling
- ✓ Automated HIPAA compliance monitoring
- ✓ AI chatbot lead capture & nurture sequences
- ✓ Reputation management & review automation

VERTICAL 05

CREATIVE PRODUCTION

AI-assisted content strategy paired with human-led clinical production

AI-assisted content strategy paired with human-led clinical production — physician video, photography, and social content that builds authority and drives conversions.

- ✓ Physician & treatment video production
- ✓ AI-assisted content calendar & topic strategy
- ✓ Professional clinical photography
- ✓ Social media creation, scheduling & AI reporting

AI + FIVE VERTICALS. ONE CONTRACT.

STOP MANAGING FIVE AGENCIES.

AI runs through every vertical we deliver — not bolted on, but baked in. One partner. One integrated strategy. One point of accountability from infrastructure to patient acquisition.

Harvard Business Review

AI-POWERED GROWTH

THE AI ENGINE BEHIND EVERY CAMPAIGN WE RUN.

AI isn't a feature we added – it's the operating system underneath every strategy we build. Predictive, compliant, and calibrated to one outcome: growing your practice faster than any manual approach can match.

PREDICTIVE PATIENT TARGETING

AI models analyze behavioral signals, search intent, and demographic patterns to identify patients most likely to book – before they ever click your ad. We reach the right person at the exact moment of healthcare decision-making.

PERFORMANCE MARKETING

AUTOMATED HIPAA COMPLIANCE MONITORING

Our AI scans every tracking pixel, form submission, ad conversion event, and third-party script in real time. If anything poses a PHI risk, it's flagged and blocked – automatically – before it becomes a liability.

COMPLIANCE

AI CHATBOT LEAD CAPTURE & TRIAGE

Intelligent chatbots pre-qualify patient inquiries 24/7, answer service questions, collect intake information, and route high-intent leads directly to your scheduling system – without touching PHI improperly.

SOFTWARE · MARKETING

AI-DRIVEN CAMPAIGN OPTIMIZATION

Machine learning continuously tests headlines, audiences, bidding strategies, and landing page variants – optimizing toward booked appointments, not just clicks. Your campaigns get smarter every single week.

PPC · SEO

AI-ASSISTED CONTENT & SEO STRATEGY

AI identifies high-intent keyword gaps, topical authority opportunities, and patient search trends – so every blog post, service page, and GBP update targets the questions your future patients are actually asking right now.

WEBSITES & SEO · CREATIVE

INTELLIGENT PATIENT JOURNEY AUTOMATION

INTELLIGENT PATIENT NURTURE AUTOMATION

Smart email and SMS sequences respond to patient behavior in real time — re-engaging no-shows, following up on form fills, requesting reviews from satisfied patients, and moving leads through your funnel automatically.

MARKETING AUTOMATION

AI THAT KNOWS THE RULES — AND FOLLOWS THEM.

Most AI marketing tools are built for e-commerce. We built ours for healthcare — where a single non-compliant pixel can trigger a HIPAA violation. Every AI tool in our stack has been evaluated for PHI safety, BAA coverage, and clinical appropriateness. You get the intelligence without the risk.

3×

Better audience match rate vs. manual targeting with AI patient modeling

24/7

AI chatbot and nurture automation working to convert leads — even at 2am

Real-time

HIPAA compliance scanning on every campaign touchpoint, continuously

THE PROBLEM

WHAT'S HOLDING YOUR PRACTICE BACK?

Every day without a unified digital strategy costs your practice real patients and real revenue. These are the gaps we close fastest.

INVISIBLE ONLINE

Weak local SEO, outdated Google Business Profiles, missing medical schema markup — your competitors rank while you're buried on page two.

WASTED AD SPEND

Broad targeting, non-compliant tracking, and generic landing pages inflate your cost-per-lead and deliver the wrong patients — if any at all.

REPUTATION RISK

Few reviews, slow responses, no systematic process to generate positive feedback — 76% of patients choose based on reputation. Inaction is losing.

WEBSITE FRICTION

Slow load times, poor mobile UX, template platform limitations, no online scheduling — patients hit your site and bounce to competitors.

HIPAA EXPOSURE

Non-compliant pixels, unsecured forms, and unvetted hosting environments put your practice at serious regulatory and reputational risk daily.

FRAGMENTED VENDORS

Your website team doesn't talk to your SEO agency. Your IT provider doesn't understand marketing. Gaps between vendors create gaps in your pipeline.

OUR WORK

BUILT BY ENSEMBLE. PERFORMING IN THE MARKET.

Every site we build is engineered for speed, SEO, HIPAA compliance, and patient conversion — not just aesthetics. Here's a sample of what we've delivered.

PROVEN PERFORMANCE

REAL PRACTICES. REAL PATIENT GROWTH.

Performance marketing for practices: 2x–3x revenue and 20–100+ new patients per month, often within six months. No projections — just results.

BARIATRIC SURGERY

**BRAND BUILT.
20+ NEW PATIENTS
IN 60 DAYS.**

Established and strongly branded a brand-new private bariatric practice through performance marketing within 60 days — driving 90+ clinic visitors and building a scalable acquisition engine from zero.

90+ NEW CLINIC VISITORS
IN 3 MONTHS

SPINE & PAIN CARE

**45+ NEW PATIENTS
PER MONTH,
MONTH OVER MONTH.**

Built a ground-up digital strategy for a Midwest spine center — establishing brand identity, earning top local rankings, and consistently delivering 45+ new patient inquiries each month and growing.

150% MONTH-ON-MONTH
VISITOR GROWTH

PAIN MANAGEMENT

**ALL-TIME HIGH:
100+ NEW PATIENTS
IN ONE MONTH.**

Implemented performance digital marketing that drove targeted traffic, generated quality leads, and converted patients at scale — reaching an all-time high of 100+ new registrations in a single month.

100+ NEW PATIENTS
IN SINGLE MONTH

THE ROADMAP

90 DAYS TO IMPACT. 12 MONTHS TO DOMINANCE.

Our 90-Day Quick-Win Plan prioritises the highest-ROI actions first so you see measurable results fast — then we build the 12-month engine for sustained market leadership.

DAYS 1-30

FOUNDATION

- Website audit — speed, mobile, ADA compliance
- HIPAA-compliant tracking & analytics setup
- Google Business Profile claimed & optimized

- NAP consistency across all directories
- Automated review generation system launched

DAYS 31-60

DEMAND GENERATION

- 3-5 high-intent service landing pages live
- Online scheduling & secure patient forms added
- Call tracking & conversation analytics live
- PPC launched — Search + Local Service Ads
- Geo-targeted campaigns for highest-intent services

DAYS 61-90

CONVERSION & SCALE

- A/B testing — headlines, CTAs, landing pages
- Negative keyword lists & intent-matching built
- Social campaigns launched (FB / IG / LinkedIn)
- First SEO content cluster published
- Custom site build commissioned if on template

12-MONTH COMPREHENSIVE STRATEGY

FOUNDATION

EXPANSION

OPTIMIZATION

SCALE

Q1 • MONTHS 1-3

FOUNDATION

- 90-day plan implemented in full
- Compliant tracking dashboards live
- HIPAA pixels & analytics configured
- First 10-20 patient reviews generated
- Baseline performance analysis complete

Q2 • MONTHS 4-6

EXPANSION

- Top 10 local rankings for priority terms
- 5 service/location pages developed
- Video ad campaigns launched
- Email/SMS nurture automation live
- Google Business posts & Q&A strategy

Q3 • MONTHS 7-9

OPTIMIZATION

- CRO experiments running continuously

- Keyword targeting expanded to adjacencies
- YouTube + Discovery remarketing live
- Content hub & local backlink building
- Enhanced provider authority profiles

Q4 • MONTHS 10-12

SCALE

- Multi-location rollout framework deployed
- Budget reallocated to highest-ROAS campaigns
- Predictive audience targeting active
- Referral partner & physician outreach
- Patient lifetime value optimization

SERVICE PLANS
